**Item 5.02 Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers.**

**(d) Election of New Director**

On July 7, 2016, the company's Board of Directors elected Dr. Tsu-Jae King Liu as a member of the Board, effective immediately. The Board has determined that Dr. Liu qualifies as "independent" in accordance with the published listing requirements of NASDAQ. Dr. Liu has not been appointed to any Board Committees at this time.

Dr. Liu, 53, holds a distinguished professorship endowed by TSMC in the Department of Electrical Engineering and Computer Sciences at the University of California, Berkeley. Dr. Liu also serves as Associate Dean for Academic Planning and Development, in the College of Engineering at U.C. Berkeley, and she previously served as Chair of the Department of Electrical Engineering and Computer Sciences. Dr. Liu has nearly 20 years of experience in higher education in a range of faculty and administrative roles, including as Associate Dean for Research in the College of Engineering. Her achievements in teaching and research have been recognized by a number of awards, most recently the Semiconductor Industry Association University Research Award. Dr. Liu served on the board of the Center for Advancing Women in Technology from October 2014 to May 2016. She received her B.S., M.S. and Ph.D. degrees in Electrical Engineering from Stanford University.

Dr. Liu will receive the standard compensation amounts payable to non-employee directors of the company. Pursuant to these arrangements, commencing in July 2016, Dr. Liu will be paid an annual retainer of \$90,000 (in addition to any committee fees), which will be pro-rated for her first year of service. In addition, in July 2016 she will be granted non-employee director outperformance restricted stock units and restricted stock units, with a cumulative market value on the grant date of approximately \$110,000 which is pro-rated from the annual awards granted to non-employee directors, and which will vest on the same schedule as annual awards granted to non-employee directors in January 2016, subject to continued service as a director.

Dr. Liu and the company also will enter into the company's standard form of directors' indemnification agreement, pursuant to which the company agrees to indemnify its directors to the fullest extent permitted by applicable law and subject to certain conditions to advance expenses in connection with proceedings as described in the indemnification agreement.

## Dr. Tsu-Jae King Liu Elected to Intel Board of Directors

SANTA CLARA, Calif., July 12, 2016 – Intel Corporation today announced that Dr. Tsu-Jae King Liu has been elected to serve on Intel's board of directors.

"We are very pleased to have Dr. Liu join the Intel board and look forward to her contributions," said Intel Chairman Andy Bryant. "She brings a wealth of expertise in silicon technology and innovation that will be valuable for Intel in many areas as we navigate a significant business transition while continuing to lead in advancing Moore's Law and harnessing its economic value."

Liu, 53, holds a distinguished professorship endowed by TSMC in the Department of Electrical Engineering and Computer Sciences (EECS), in the College of Engineering at the University of California, Berkeley where she also serves as associate dean for Academic Planning and Development. Liu's previous administrative positions within the College of Engineering include associate dean for research and EECS department chair. She has also held research and engineering positions at the Xerox Palo Alto Research Center and Synopsys Inc.

Liu holds over 90 patents and has received numerous awards for her research, including the Intel Outstanding Researcher in Nanotechnology Award (2012) and the SIA University Researcher Award (2014). Currently, her research is focused on nanometer-scale logic and memory devices, and advanced materials, process technology and devices for energy-efficient electronics. She received B.S., M.S. and Ph.D. degrees in electrical engineering from Stanford University in 1984, 1986 and 1994, respectively.
