Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions (see General Instruction A.2. below):

[] Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)

[] Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)

[] Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))

[] Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4c))

Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (17 CFR 230.405) or Rule 12b-2 of the Securities Exchange Act of 1934 (17 CFR 240.12b-2).

Emerging Growth Company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

#### Item 2.02 Results of Operations and Financial Condition.

On April 26, 2018, Intel Corporation ("Intel") issued a press release announcing the financial results of its first quarter ended March 31, 2018 and forwardlooking statements relating to its second quarter of 2018 and full year 2018. A copy of this press release is attached hereto as Exhibit 99.1 and is incorporated by reference herein.

The attached press release includes non-GAAP financial measures relating to our operations and forecasted outlook. Certain of these non-GAAP terms will be used in Intel's earnings conference for the first quarter of 2018. In addition, the attached press release includes reconciliations of these non-GAAP measures to GAAP measures, as well as an explanation of how management uses these non-GAAP measures and the reasons why management views these measures as providing useful information for investors. These non-GAAP financial measures should not be considered a substitute for, or superior to, financial measures calculated in accordance with GAAP and reconciliations from Intel's results should be carefully evaluated.

The information in Item 2.02 of this Report and the press release attached hereto as Exhibit 99.1 are furnished and shall not be treated as filed for purposes of the Securities Exchange Act of 1934, as amended.

#### Item 9.01 Financial Statements and Exhibits.

#### (d) Exhibits.

The following exhibit is furnished as part of this Report:

Exhibit NumberDescription99.1Press Release

Press Release issued by Intel entitled "Intel Reports First-Quarter Financial Results" dated April 26, 2018.

## SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

(Registrant)

Date: April 26, 2018

By: /s/ ROBERT H. SWAN

Robert H. Swan Executive Vice President and Chief Financial Officer Intel Corporation 2200 Mission College Blvd. Santa Clara, CA 95054-1549

#### **Intel Reports First-Quarter Financial Results**

#### **News Summary:**

- Record first-quarter revenue was \$16.1 billion, up 13 percent year-over-year<sup>1</sup> on strength of Intel's data-centric\* businesses, which accounted for 49 percent of first-quarter revenue.
- Data-centric growth and operating margin leverage boosted earnings-per-share (EPS), which rose 53 percent year-over-year; non-GAAP EPS was up 32 percent year-over-year.
- Intel is raising its full-year revenue and earnings outlook based on this strong start; expecting 2018 revenue of \$67.5 billion, up \$2.5 billion from prior guidance.

SANTA CLARA, Calif., April 26, 2018 -- Intel Corporation today reported first-quarter 2018 financial results.

"Coming off a record 2017, 2018 is off to a strong start. Our PC business continued to execute well and our data-centric businesses grew 25 percent, accounting for nearly half of first-quarter revenue," said Brian Krzanich, Intel CEO. "The strength of Intel's business underscores my confidence in our strategy and the unrelenting demand for compute performance fueled by the growth of data."

"Compared to the first-quarter expectations we set in January, revenue was higher, operating margins were stronger and EPS was better," said Bob Swan, Intel CFO. "Our data-centric strategy is accelerating Intel's transformation, and we're raising our earnings and cash flow expectations for the year."

#### **Q1 2018 Financial Highlights**

|                        |         | GAAP    |               |         | Non-GAAP |               |

#### **Business Unit Summary**

|              |      | Key Business Unit Revenue and Tre | ends        |
|--------------|------|-----------------------------------|-------------|
|              |      | Q1 2018                           | vs. Q1 2017 |
| PC-centric   | CCG  | \$8.2 billion                     | up 3%       |
|              | DCG  | \$5.2 billion                     | up 24%      |
|              | IOTG | \$840 million                     | up 17%      |
| Data-centric | NSG  | \$1.0 billion                     | up 20%      |
|              | PSG  | \$498 million                     | up 17%      |
|              |      |                                   | up 25%*     |

In the first quarter, Intel saw strong performance from data-centric businesses, which accounted for approximately half (49%) of Intel's revenue, an all-time high. The Data Center Group (DCG) achieved growth in all market segments and saw increasing adoption of Intel® Xeon® Scalable processors, including for artificial intelligence workloads. Non-Volatile Memory Solutions Group (NSG) revenue grew 20 percent as strong demand for storage continued. The Programmable Solutions Group (PSG) won new designs with server OEMs adding Intel's field programmable gate array (FPGA) acceleration to their data center offerings, and strong demand from retail and video customers drove first-quarter growth in the Internet of Things Group (IOTG).

The Client Computing Group (CCG) continued its strong execution and introduced a new lineup of high-performance mobile products including the 8th Gen Intel<sup>®</sup> Core<sup>TM</sup> i9 processor and a new Intel Core platform extension that brings together the benefits of 8th Gen Intel Core processors with Intel<sup>®</sup> Optane<sup>TM</sup> memory. We continue to make 14 nm process optimizations and architectural innovations in both data center and client products that will be coming this year. Intel is currently shipping low-volume 10 nm product and now expects 10 nm volume production to shift to 2019.

In autonomous driving, Mobileye continued momentum with automotive customers and recently won a high-volume design for EyeQ\*5. The company also began operating autonomous vehicle test cars in Israel with plans to expand the fleet to other geographies.

Additional information regarding Intel's results can be found in the Q1'18 Earnings Presentation available at: www.intc.com/results.cfm.

Intel will hold a public webcast at 2:00 p.m. PDT today to discuss the results for its first quarter of 2018. The live public webcast can be accessed on Intel's Investor Relations website at www.intc.com/results.cfm. The Q1'18 Earnings Presentation, webcast replay, and audio download will also be available on the site.

Intel plans to report its earnings for the second quarter of 2018 on July 26, 2018 promptly after close of market, and related materials will be available at <a href="http://www.intc.com/results.cfm">www.intc.com/results.cfm</a>. A public webcast of Intel's earnings conference call will follow at 2:00 p.m. PDT at <a href="http://www.intc.com/www.intc.com">www.intc.com/results.cfm</a>.

<sup>^</sup> No adjustment on a non-GAAP basis.

#### Forward-Looking Statements

Intel's Business Outlook and other statements in this release that refer to future plans and expectations are forward-looking statements that involve a number of risks and uncertainties. Words such as "anticipates," "expects," "intends," "goals," "plans," "believes," "seeks," "estimates," "continues," "may," "will," "would," "should," "could," and variations of such words and similar expressions are intended to identify such forward-looking statements. Statements that refer to or are based on projections, uncertain events or assumptions also identify forward-looking statements. All forward-looking statements included in this news release are based on management's expectations as of the date of this earnings release and, except as required by law, Intel disclaims any obligation to update these forward-looking statements to reflect future events or circumstances. Forward-looking statements involve many risks and uncertainties that could cause actual results to differ materially from those expressed or implied in such statements. Intel presently considers the following to be important factors that could cause actual results to differ materially from the company's expectations.

- Demand for Intel's products is highly variable and could differ from expectations due to factors including changes in business and economic conditions; customer confidence or income levels; the introduction, availability and market acceptance of Intel's products, products used together with Intel products and competitors' products; competitive and pricing pressures, including actions taken by competitors; supply constraints and other disruptions affecting customers; changes in customer order patterns including order cancellations; and changes in the level of inventory at customers.
- Intel's results could vary significantly from expectations based on capacity utilization; variations in inventory valuation, including variations related to the
  timing of qualifying products for sale; changes in revenue levels; segment product mix; the timing and execution of the manufacturing ramp and
  associated costs; excess or obsolete inventory; changes in unit costs; defects or disruptions in the supply of materials or resources; and product
  manufacturing quality/yields. Variations in results may also be caused by the timing of Intel product introductions and related expenses, including
  marketing programs, and Intel's ability to respond quickly to technological developments and to introduce new products or incorporate new features into
  existing products, which may result in restructuring and asset impairment charges.
- Intel's results could be affected by adverse economic, social, political and physical/infrastructure conditions in countries where Intel, its customers or its suppliers operate, including military conflict and other security risks, natural disasters, infrastructure disruptions, health concerns, fluctuations in currency exchange rates, sanctions and tariffs, and continuing uncertainty regarding social, political, immigration, and tax and trade policies in the U.S. and abroad, including the United Kingdom's vote to withdraw from the European Union. Results may also be affected by the formal or informal imposition by countries of new or revised export and/or import and doing-business regulations, which could be changed without prior notice.
- Intel operates in highly competitive industries and its operations have high costs that are either fixed or difficult to reduce in the short term.
- The amount, timing and execution of Intel's stock repurchase program may fluctuate based on Intel's priorities for the use of cash for other purposes such as investing in our business, including operational and capital spending, acquisitions, and returning cash to our stockholders as dividend payments—and because of changes in cash flows, tax laws, or the market price of our common stock.
- Intel's expected tax rate is based on current tax law, including current interpretations of the Tax Cuts and Jobs Act of 2017 ("TCJA"), and current
  expected income and may be affected by evolving interpretations of TCJA; the jurisdictions in which profits are determined to be earned and taxed;
  changes in the estimates of credits, benefits and deductions; the resolution of issues arising from tax audits with various tax authorities, including
  payment of interest and penalties; and the ability to realize deferred tax assets.
- Intel's results could be affected by gains or losses from equity securities and interest and other, which could vary depending on gains or losses on the change in fair value, sale, exchange, or impairments of equity and debt investments, interest rates, cash balances, and changes in fair value of derivative instruments.
- Product defects or errata (deviations from published specifications) may adversely impact our expenses, revenues and reputation.

#### Intel/Page 5

- Security vulnerability issues may exist with respect to our processors and other products as well as the operating systems and workloads running on them. Mitigation techniques, including software and firmware updates, may not operate as intended or effectively resolve these vulnerabilities. In addition, we may be required to rely on third parties, including hardware, software, and services vendors, as well as end users, to develop and deploy mitigation techniques, and the effectiveness of mitigation techniques may depend solely or in part on the actions of these third parties. Security vulnerabilities and/or mitigation techniques, including software and firmware updates, may result in adverse performance, reboots, system instability, data loss or corruption, unpredictable system behavior, or the misappropriation of data by third parties. We have and may continue to face product claims, litigation, and adverse publicity and customer relations from security vulnerabilities and/or mitigation techniques, including, which could adversely impact our results of operations, customer relationships, and reputation. Separately, the publicity around recently disclosed security vulnerabilities may result in increased attempts by third parties to identify additional vulnerabilities, and future vulnerabilities and mitigation of those vulnerabilities may also adversely impact our results of operations, customer relationships, and reputation.
- Intel's results could be affected by litigation or regulatory matters involving intellectual property, stockholder, consumer, antitrust, disclosure and other issues. An unfavorable ruling could include monetary damages or an injunction prohibiting Intel from manufacturing or selling one or more products, precluding particular business practices, impacting Intel's ability to design its products, or requiring other remedies such as compulsory licensing of intellectual property.
- Intel's results may be affected by the timing of closing of acquisitions, divestitures and other significant transactions.

Additional information regarding these and other factors that could affect Intel's results is included in Intel's SEC filings, including the company's most recent reports on Forms 10-K and 10-Q, copies of which may be obtained by visiting our Investor Relations website at www.intc.com or the SEC's website at www.sec.gov.

|                                     |        |         |                |  |

In the third quarter of 2017, Intel completed its tender offer for the outstanding ordinary shares of Mobileye B.V. (Mobileye), formerly known as Mobileye N.V. In the second quarter of 2017, Intel completed its divestiture of Intel Security Group (ISecG). The results of Mobileye and ISecG are reported within the "All Other" category.

Revenue for our reportable and non-reportable operating segments is primarily related to the following product lines:

- · CCG is responsible for all aspects of the client computing continuum, which includes platforms designed for end-user form factors, focusing on high growth segments of 2-in-1, thin-and-light, commercial and gaming, and growing adjacencies as well as connectivity technologies.
- DCG develops workload-optimized platforms for compute, storage, network, and related functions, which are designed for and sold into the enterprise and government, cloud, and communications service providers market segments.
- · IOTG develops and sells high-performance Internet of Things compute solutions for retail, automotive, industrial, and video surveillance market segments, along with a broad range of other embedded applications. These market-driven solutions utilize silicon and software assets from our data center and client businesses to expand our compute footprint into Internet of Things market segments.
- NSG offers Intel® Optane™ and Intel® 3D NAND technologies, which drive innovation in solid-state drives (SSDs). The primary customers are enterprise and cloud-based data centers, users of
- PSG offers programmable semiconductors, primarily field-programmable gate arrays (FPGAs) and related products for a broad range of market segments, including communications, data center, industrial, military, and automotive.

We have sales and marketing, manufacturing, engineering, finance, and administration groups. Expenses for these groups are generally allocated to the operating segments and the expenses are included in the following operating results.

All other category includes revenue, expenses, and charges such as:

- · results of operations from non-reportable segments not otherwise presented;
- historical results of operations from divested businesses;
- results of operations of start-up businesses that support our initiatives, including our foundry business;
- amounts included within restructuring and other charges;
- a portion of employee benefits, compensation, and other expenses not allocated to the operating segments; and
- acquisition-related costs, including amortization and any impairment of acquisition-related intangibles and goodwill.

A substantial majority of our revenue is generated from the sale of platform products. Platform products incorporate various components and technologies, including a microprocessor and chipset, a stand-alone SoC, or a multi-chip package. Our remaining primary product lines are incorporated in "adjacency."

#### INTEL CORPORATION EXPLANATION OF NON-GAAP MEASURES

In addition to disclosing financial results in accordance with U.S. generally accepted accounting principles (GAAP), this earnings release contains references to the non-GAAP financial measures described below. We believe these non-GAAP financial measures provide investors with useful supplemental information about the financial performance of our business, enable comparison of financial results between periods where certain items may vary independent of business performance, and allow for greater transparency with respect to key metrics used by management in operating our business and measuring our performance.

Our non-GAAP financial measures reflect adjustments based on the following items, as well as the related income tax effects. Income tax effects have been calculated using an appropriate tax rate for each adjustment. These non-GAAP financial measures should not be considered a substitute for, or superior to, financial measures calculated in accordance with GAAP, and the financial results calculated in accordance with GAAP and reconciliations from these results should be carefully evaluated.

Acquisition-related adjustments: The non-GAAP financial measures disclosed by the company exclude certain business combination accounting adjustments and certain expenses related to acquisitions as follows:

Amortization of acquisition-related intangible assets: Amortization of acquisition-related intangible assets consists of amortization of intangibles assets such as developed technology, brands, and customer relationships acquired in connection with business combinations. We record charges relating to the amortization of these intangibles within both cost of sales and operating expenses in our GAAP financial statements. Amortization charges for our acquisition-related intangible assets are inconsistent in size and are significantly impacted by the timing and valuation of our acquisitions. Consequently, our non-GAAP adjustments exclude these charges to facilitate an evaluation of our current operating performance and comparisons to our past operating performance.

Restructuring and other charges: Restructuring charges are costs associated with a formal restructuring plan and are primarily related to employee severance and benefit arrangements. Other charges include asset impairments, pension charges, and costs associated with the Intel Security Group divestiture. We exclude restructuring and other charges, including any adjustments to charges recorded in prior periods, for purposes of calculating certain non-GAAP measures. We believe that these costs do not reflect our current operating performance. Consequently, our non-GAAP adjustments exclude these charges to facilitate an evaluation of our current operating performance.

Mark to market on marketable equity securities: We exclude gains and losses resulting from mark to market adjustments of our marketable equity securities when calculating certain non-GAAP measures as we do not believe the volatility generally associated with these securities correlates to our core operational performance. Consequently, our non-GAAP net income and earnings per share figures exclude these impacts to facilitate an evaluation of our current performance and comparisons to our past performance.

Gains or losses from divestiture: We exclude gains or losses resulting from the divestiture of Intel Security Group in the second quarter of 2017 and planned divestiture of Wind River in 2018. We have excluded these gains and related tax impacts for purposes of calculating certain non-GAAP measures. We believe making these adjustments facilitates a better evaluation of our current operating performance and comparisons to past operating results.

Free cash flow: We reference a non-GAAP financial measure of free cash flow, which is used by management when assessing our sources of liquidity, capital resources, and operating performance. We believe this non-GAAP financial measure is helpful to investors in understanding our capital structure and provides an additional means to reflect the cash flow trends of our business.

#### INTEL CORPORATION SUPPLEMENTAL RECONCILIATIONS OF GAAP OUTLOOK TO NON-GAAP OUTLOOK

Set forth below are reconciliations of the non-GAAP financial measure to the most directly comparable GAAP financial measure. The non-GAAP financial measures disclosed by the company have limitations and should not be considered a substitute for, or superior to, the financial measures prepared in accordance with GAAP, and the financial outlook prepared in accordance with GAAP and the reconciliations from this Business Outlook should be carefully evaluated. Please refer to "Explanation of Non-GAAP Measures" in this document for a detailed explanation of the adjustments made to the comparable GAAP measures, the ways management uses the non-GAAP measures, and the reasons why management believes the non-GAAP measures provide useful information for investors.
