Report of Independent Registered Public Accounting Firm

The Plan Participants and the Plan Administrator of
Intel 401(k) Savings Plan

Opinion on the Financial Statements

We have audited the accompanying statements of net assets available for benefits of Intel 401(k) Savings Plan (the Plan) as of December 31, 2020 and 2019, and the related statement of changes in net assets available for benefits for the year ended December 31, 2020, and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2020 and 2019, and the changes in its net assets available for benefits for the year ended December 31, 2020, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Plan’s management. Our responsibility is to express an opinion on the Plan’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Plan in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Plan’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Supplemental Schedule

The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2020, has been subjected to audit procedures performed in conjunction with the audit of the Plan's financial statements. The information in the supplemental schedule is the responsibility of the Plan's management. Our audit procedures included determining whether the information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental schedule. In forming our opinion on the information, we evaluated whether such information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

/s/ Ernst & Young LLP

We have served as the Plan's auditor since 1996.

Intel 401(k) Savings Plan

Statement of Changes in Net Assets Available for Benefits

Year Ended December 31, 2020

Additions to (deductions from) net assets attributed to:

Participant contributions	\$	975,438,807
Employer matching contributions		404,467,413
Net realized and unrealized appreciation in fair value of investments		2,469,328,019
Interest and dividend income		100,540,366
Benefits paid to participants and participant withdrawals		(720,390,333)
Administrative expenses		(147,775)
Net increase before transfer out to other plan		<u>3,229,236,497</u>
Transfer out to other plan		(164,861)
Net increase		<u>3,229,071,636</u>
Net assets available for benefits:		
Beginning of year		<u>14,783,883,465</u>
End of year	\$	<u><u>18,012,955,101</u></u>

See accompanying notes.

Intel 401(k) Savings Plan
Notes to Financial Statements
December 31, 2020

1. Description of the Plan

The following description of the Intel 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the summary plan description for a more complete description of the Plan's provisions. The plan document contains the definitive legal provisions governing the Plan.

General

The Plan is a defined contribution plan covering all eligible United States (U.S.) employees of Intel Corporation (the Company or Plan sponsor). Eligible employees may participate in the Plan at any time on or after their date of hire. All employees who become eligible to participate are automatically enrolled in the Plan, unless they choose a different deferral rate or make an affirmative election not to participate. Deferrals for participants who are automatically enrolled are deposited in the appropriate Target Date Fund, based on the participants' ages. Employee deferrals are subject to the limitations as set forth in the plan document.

Effective January 1, 2019, the Plan was amended to modify certain rollover, distribution, and hardship provisions of the Plan.

Prior to January 1, 2020, the Company made discretionary contributions for certain eligible employees. Effective January 1, 2020, the Plan added employer matching contributions with immediate eligibility and vesting. The Plan was also amended to allow for after-tax contributions with Roth In-Plan conversions.

Effective January 1, 2020 the Plan amended its Roth In-Plan conversion provisions and the age for required minimum distributions. The Plan was amended March 1, 2020 to modify the claims and appeals extension provisions.

Effective April 2020, Coronavirus Related Distributions (CRDs), as defined in the Coronavirus Aid, Relief, and Economic Security Act (CARES Act), were added to the Plan. In addition, eligible participants were given the ability to defer participant loan repayments. The CARES Act allows for utilization of these provisions immediately, but requires formal adoption of the amendment no later than the last day of the plan year beginning on or after January 1, 2022. The Plan was formally amended effective January 1, 2020 for CRDs.

The Plan is intended to be qualified under Section 401(a) of the Internal Revenue Code of 1986 (the Code), as amended, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Intel 401(k) Savings Plan
Notes to Financial Statements

Trustee

State Street Bank and Trust Company (State Street) is the trustee for the Plan and holds substantially all of the investments of the Plan or through a sub-trust for which Fidelity Management Trust Company is the sub-trustee.

Administration of the Plan

The Company's Chief Financial Officer appoints the members of the Retirement Plans Administrative Committee (RPAC) and the Investment Policy Committee (IPC). The RPAC is the fiduciary responsible for the general operation and administration of the Plan. The IPC is the fiduciary responsible for management and control of the Plan assets. Fidelity Workspace Services LLC (Fidelity) is the Plan's record keeper.

Contributions and Participant Accounts

Participant Contributions

Eligible participants may make pre-tax deferrals, after-tax Roth 401(k) deferrals, or a combination of both, up to 50% of their annual eligible compensation, provided the amounts do not exceed the annual IRS limits. Effective January 1, 2020, eligible participants may make after-tax deferrals to the Plan. Such deferrals are withheld by the Company from each participant's compensation and deposited in the appropriate investment option in accordance with the participant's directives. Employees hired on or after January 1, 2011 but prior to January 1, 2013 were automatically enrolled and deemed to have elected pre-tax deferrals in an amount equal to 3% of compensation, with this amount increasing by 1% each April 1 of each successive plan year to a maximum of 10% of compensation, as defined, unless otherwise elected. Employees hired on or after January 1, 2013 are automatically enrolled and deemed to have elected pre-tax deferrals in an amount equal to 6% of compensation with this amount increasing by 2% each April 1 of each successive plan year to a maximum of 16% of compensation, unless otherwise elected.

Effective January 1, 2020, an employee who was an eligible employee before September 27, 2019 and who did not enroll in the Plan or enrolled in the Plan at less than 5% of eligible compensation, as defined by the Plan, was automatically enrolled or re-enrolled in the Plan as of January 1, 2020 at 5% of eligible compensation, provided the participant was an eligible participant and did not make an affirmative election to not enroll in the Plan. An employee who becomes an eligible participant on or after January 1, 2020 is automatically enrolled in the Plan at 5% of eligible compensation as soon as administratively possible, following 45 days after becoming an eligible employee, unless the participant makes an affirmative election to not enroll in the Plan. The participant's automatic enrollment election of 5% will increase by 2% effective the first payroll period ending on or after April 1 of the plan year following the plan year in which the eligible employee's automatic enrollment begins and each successive year until a maximum election of 15% pre-tax deferral is reached, subject to certain limitations.

Intel 401(k) Savings Plan
Notes to Financial Statements

Participants who are 50 years of age or older by the end of a particular plan year are eligible to defer an additional portion of their annual compensation as catch-up deferrals, up to the annual IRS limit. Participants can elect to invest in any combination of the available investment options offered under the Plan, in addition to mutual funds and exchange-traded funds available through a self-directed brokerage account. However, participants may not elect to invest more than 20% of their account in the Intel Stock Fund. Participants may change their investment elections daily.

Company Contributions

Prior to January 1, 2020, the Plan provided for the Company, at its discretion, to make an annual contribution to the eligible participants' Discretionary Intel Contribution Accounts, subject to certain limitations of the Code. Amounts to be contributed were determined by the Chief Executive Officer of the Company under delegation from the Board of Directors, pursuant to the terms of the Plan. Generally, only eligible participants employed by the Company on the last day of the plan year and who had completed one year of service as defined by the plan document were eligible to receive the Company discretionary contribution, except in the event of death, job elimination, divestiture, total and permanent disability, or attainment of the normal or early retirement date occurring during the plan year.

Effective January 1, 2020, eligible employees began receiving Company matching contributions with immediate eligibility. The Company matching contribution made each payroll period is 200% of each eligible employee's eligible elective deferrals up to 5% of eligible earnings. Effective January 1, 2021, and thereafter, the Company matching contribution made each payroll period is 100% of each eligible employee's eligible elective deferrals up to 5% of eligible compensation. The Company matching contribution will be true-up each Plan year to attain the appropriate allocation rate for the plan year as a whole.

Participants have authority over the investment allocation of Company contributions.

Participant Accounts

Each participant's account is credited with the participant's contributions, Company matching contributions, and prior to January 1, 2020, a Company discretionary contribution, as well as Plan earnings. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Employee Stock Ownership Plan (ESOP)

Under the terms of the Plan, the Intel Stock Fund is an ESOP in accordance with Code Section 4975(e)(7). As such, participants will have the option to receive dividends on their shares of stock held in the Intel Stock Fund distributed in cash or reinvested within the Intel Stock Fund.

Intel 401(k) Savings Plan
Notes to Financial Statements

Vesting

Participants are immediately 100% vested with respect to employee deferrals, Company matching contributions and related earnings.

Participants vest in their Discretionary Intel Contribution Account according to the following schedule:

Years of Service	Vesting
Fewer than 2	0 %
2 but less than 3	20
3 but less than 4	40
4 but less than 5	60
5 but less than 6	80
6 or more	100

The value of each participant's account becomes 100% vested when the participant reaches age 60 or upon death while actively employed, or upon total and permanent disability. In addition, the value of each participant's account may also become 100% vested upon job elimination or upon termination of employment due to a divestiture.

For participants who withdrew from the Plan during 2020, unvested account balances of approximately \$4,995,000 were forfeited during the year ended December 31, 2020. As of December 31, 2020 and 2019, approximately \$6,224,000 and \$5,031,000 of forfeitures were available to be used. The Company considered these forfeited amounts in determining the Company's contribution.

Payment of Benefits

Participants are eligible for a distribution of plan benefits upon termination of service, whether by disability, retirement, death or leaving the Company. In the event of financial hardship (as defined in the plan document), participants may withdraw amounts from the employee contribution portion of their plan accounts while they are still employed. Upon termination of service, a participant or applicable beneficiary may elect to have benefits paid as a single lump-sum distribution, monthly annuity payments (only pre-tax sources), partial distribution (not available to beneficiaries), or may request that the Plan make a direct rollover distribution to another eligible retirement plan.

Participants who elect monthly annuity payments will have the balance of their account transferred to the Intel Minimum Pension Plan. An annuity is paid to those participants based on the value of their plan account in accordance with the terms of the two plans. There were transfers under this option of \$164,861 for the year ended December 31, 2020.

Intel 401(k) Savings Plan
Notes to Financial Statements

Notes Receivable from Participants

Active participants are permitted to obtain loans of up to 50% of their vested account balance in the Plan up to a maximum of \$50,000 when combined with all other loans from the Plan and the Intel Retirement Contribution Plan (Intel Contribution Plan). No more than two loans may be outstanding at any time. Participants' account balances secure their loans. The interest rate on these loans is based on the prime rate plus 1% as reported by *Reuters* on the last business day of each month. Loan provisions are established by the RPAC and administered by the record keeper.

Participants may choose to obtain loans from the Plan, the Intel Contribution Plan or a combination of both. Repayments of loans are transferred to the participants' Plan and Intel Contribution Plan accounts in the ratio to which their accounts provided funding for the loan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation

Investments held are stated at fair value. See Note 3, "Fair Value Measurements," for discussion on fair value measurements.

The self-directed brokerage accounts consist of mutual funds, money market funds and corporate stock.

The fair value of corporate stocks, exchange traded funds, money market funds and mutual funds are valued at quoted prices in an active market.

The Plan invests in units of participation in collective investment trust funds held within a proprietary collective investment trust, the Intel Retirement Plans Collective Investment Trust (the CIT Trust). The Global Trust Company is the trustee and investment manager of each collective investment trust fund offered by the CIT Trust.

The fair value of participation units in the collective investment trust funds and common collective trust funds, from here on termed collective trust funds, are valued using net asset value (NAV) of units held. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. There are no future commitments on any of the collective trust funds.

Intel 401(k) Savings Plan
Notes to Financial Statements

Income Recognition

Net realized and unrealized appreciation (depreciation) in fair value of investments includes the net realized gain (loss) on investments sold during the year and the net change in unrealized appreciation (depreciation) during the year on investments held at the end of the year.

Investment transactions are recognized as of their trade dates. Interest is accrued daily; dividends are accrued on the ex-dividend date.

Notes Receivable from Participants

Participant loans are classified as notes receivable from participants on the statements of net assets available for benefits and are valued at their unpaid principal balance, plus accrued but unpaid interest. The interest earned on these loans is included with interest and dividend income on the statement of changes in net assets available for benefits.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

The Company pays the expenses for administration of the Plan.

Contributions

Participant deferrals are accrued when withheld from the participants' eligible compensation. Company contributions are accrued in the period in which they become obligations of the Company, pursuant to the terms of the plan document.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Intel 401(k) Savings Plan
Notes to Financial Statements

Recent Accounting Pronouncements

In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2018-13, *Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement*. This amendment to the Accounting Standards Codification Topic 820, *Fair Value Measurement*, eliminates, adds and modifies certain disclosure requirements for fair value measurements. The amendment was effective for fiscal years beginning after December 15, 2019. The adoption of this standard did not significantly impact the Plan's financial statements.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

- *Level 1.* Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- *Level 2.* Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- *Level 3.* Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Intel 401(k) Savings Plan
Notes to Financial Statements

Assets and Liabilities Measured at Fair Value on a Recurring Basis

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020.

	Assets at Fair Value Classified as Level 1	Investments Measured at Net Asset Value	Total
Assets			
Company common stock	\$ 527,839,770	\$ —	\$ 527,839,770
Mutual funds	996,549,487	—	996,549,487
Self-directed brokerage accounts	1,938,506,175	—	1,938,506,175
Collective trust funds	—	14,378,868,014	14,378,868,014
Total investments, at fair value	<u>\$ 3,462,895,432</u>	<u>\$ 14,378,868,014</u>	<u>\$ 17,841,763,446</u>

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019.

	Assets at Fair Value Classified as Level 1	Investments Measured at Net Asset Value	Total
Assets			
Company common stock	\$ 640,326,261	\$ —	\$ 640,326,261
Mutual funds	847,843,870	—	847,843,870
Self-directed brokerage accounts	1,418,529,133	—	1,418,529,133
Collective trust funds	—	11,448,252,418	11,448,252,418
Total investments, at fair value	<u>\$ 2,906,699,264</u>	<u>\$ 11,448,252,418</u>	<u>\$ 14,354,951,682</u>

Assets Reported at Net Asset Value

The following table summarizes investments held by the Plan measured at fair valued based on net asset value per share as of December 31, 2020 and 2019, respectively.

	2020	2019	Redemption Period	Redemption Notice
Collective trust funds	\$ 14,378,868,014	\$ 11,448,252,418	Daily	0-5 days

Intel 401(k) Savings Plan
Notes to Financial Statements

4. Party-In-Interest Transactions

Transactions in shares of the Company's common stock qualify as party-in-interest transactions under the provisions of ERISA. During 2020, the Plan made purchases of the Company's common stock of \$42,491,500 and sales and distributions totaling \$50,176,864. In addition, the Plan holds investments managed by affiliates of Fidelity and State Street, which also qualify as party-in-interest transactions. As of December 31, 2020 and 2019, the Plan held \$3,635,340,751 and \$2,276,890,979, respectively, of investments managed by affiliates of Fidelity and \$400,540 and \$339,832, respectively, of investments managed by State Street.

The Plan also invests in collective investment trust funds within the CIT Trust, a proprietary collective investment trust, which qualifies as party-in-interest transactions. As of December 31, 2020 and 2019, the Plan held \$7,808,463,184 and \$6,695,604,686, respectively, in collective investment trust funds within the CIT Trust.

5. Concentration of Credit Risk

The Plan's exposure to a concentration of credit risk is limited by the diversification of investments across multiple participant-directed fund elections. With the exception of the Intel Stock Fund, the investments within each participant-directed fund election are further diversified into varied financial instruments.

The Intel Stock Fund invests in a single security, the trading value of which is used to determine the entire fair value of the Intel Stock Fund. Policies have been established by the IPC to limit the Plan's risk exposure through prudent diversification and investment of the Plan's assets.

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

7. Income Tax Status

The Plan received a determination letter dated October 16, 2015 from the Internal Revenue Service (IRS) stating that the Plan and related trust are designed in accordance with applicable sections of the Code. Subsequent to this determination by the IRS, the Plan was amended and restated. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The Plan sponsor has indicated that it will take the necessary steps, if any, to bring the Plan's operations into compliance with the Code and to maintain the tax qualified status of the Plan.

Intel 401(k) Savings Plan
Notes to Financial Statements

Accounting principles generally accepted in the United States require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions. The Plan was under audit for the years 2011 to 2017. The audit was closed in April of 2020.

8. Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a plan termination, participants will become 100% vested in their accounts.

9. Reconciliation of Financial Statements to the Form 5500

The following is a reconciliation of the net assets available for benefits per the financial statements to the Form 5500:

	December 31	
	2020	2019
Net assets available for benefits per the financial statements	\$ 18,012,955,101	\$ 14,783,883,465
Amounts allocated to withdrawing participants	(1,817,565)	(2,397,021)
Net assets available for benefits per the Form 5500	\$ 18,011,137,536	\$ 14,781,486,444

The following is a reconciliation of benefits paid to participants per the financial statements for the year ended December 31, 2020 to the Form 5500:

Benefits paid to participants per the financial statements	\$	720,390,333
Less: Amount allocated to withdrawing participants at December 31, 2019		(2,397,021)
Add: Amount allocated to withdrawing participants at December 31, 2020		1,817,565
Benefits paid to participants per the Form 5500	\$	719,810,877

Amounts allocated to participants are recorded on the Form 5500 for benefit payments that have been processed and approved for payment prior to December 31, but not yet paid as of that date.
