## Explanation of Responses:

1. Performance-based stock units ("PSUs") for 76,705 shares of Intel common stock were earned on January 31, 2026, based on the achievement of pre-established performance metrics, as approved by the Company's Compensation Committee, for the three-year performance period beginning fiscal year 2023 and ending on the last day of fiscal year 2025.
2. This transaction was executed in multiple trades at prices ranging from \$49.04 to \$49.055. The price reported above reflects the weighted average sale price. The reporting person hereby undertakes to provide upon request to the SEC staff, the issuer or a security holder of the issuer full information regarding the number of shares and prices at which the transaction was effected.
3. Each performance-based stock unit (PSU) represents the right to receive, following vesting, up to 200% of one share of Intel common stock. The number of shares of Intel common stock acquired upon vesting of the PSUs is contingent upon the achievement of pre-established performance metrics, as approved by the Company's Compensation Committee, over a three-year performance period beginning with the first day of the fiscal year of the grant date and ending on the last day of the fiscal year of the second anniversary of the grant date.
4. Unless earlier forfeited under the terms of the PSU, each PSU vests and converts into no more than 200% of one share of Intel common stock on January 31, 2026, unless that date falls on a non-business date, in which case the next business date shall apply.
