Explanation of Responses:

- * If the form is filed by more than one reporting person, see Instruction 4(b)(v).

- (1) Each performance-based Restricted Stock Unit (RSU) represents the right to receive, following vesting, up to 200% of one share of Intel common stock. The number of shares of Intel common stock

acquired upon vesting of the performance-based RSUs is contingent upon the achievement of pre-established performance metrics, as approved by the Company's Compensation Committee, over a three-year performance period beginning on the grant date and ending on the third anniversary of the grant date, unless that date falls on a date that the NASDAQ Stock Market is closed, in which case the next business date that the NASDAQ Stock Market is open shall apply.

- (2) The reporting person elected to defer settlement of his/her grant of restricted stock units until the termination of his/her service to the Intel Corporation Board of Directors.
- (3) Unless earlier forfeited under the terms of the performance-based RSU, each performance-based RSU vests and converts into no more than 200% of one share of Intel common stock three years and one month after the grant date, unless that date falls on a non-business date, in which case the next business date shall apply.
- (4) Each restricted stock unit represents the right to receive, following vesting, one share of Intel Corporation common stock.
- (5) Unless earlier forfeited under the terms of the RSU, 33 1/3% of the awards vest and convert into common stock on each anniversary of the grant date, unless that date falls on a non-business date, in which case the next business date shall apply.
